

CONSTRUCTION/INSTALLATION PRICING GUIDE

RESIDENTIAL

Fiber-to-the-Premise Construction (On Property, Outside Connection from nearest fiber location)

- **Standard FTTP Construction: No Charge for most residential properties in Hudson**
Overhead or Underground fiber from nearest pole or underground splice point to house (demarc)
- **Custom FTTP Construction (special project by customer request): Price TBD** by material and labor hours at current cost

Inside Wiring and Installation (from the fiber splice point placed at your home)

- **Standard Inside Wiring Installation: \$99 one-time fee, WAIVED WITH 1-YEAR TERM**
Single cable run from splice point on side of home (demarc) to central location in home
Length of Time = < 2 hours
- **Custom Inside Wiring Installation (by customer request): Price TBD** by material, labor hours, and contractor pricing at current cost
Any requested wiring outside of the scope of a Standard Installation, to include any of the following:
 - additional wiring in addition to standard single cable run
 - wiring to individual rooms
 - wiring to or addition of data ports
 - wiring for addition of access points or other WiFi equipment
 - cosmetic changes including conduit installation
 - wiring jobs > 2 hours due to customer requirements and/or special requests
