

Smart Number Business On-the-Go Voice

- Get the features of a business phone system on your cell phone
- No need for two separate phones
- Publish and advertise your business number
- Keep your personal number private
- Transfer your existing business number to your Velocity Smart Number

Smart Mobility App provides all the Features of a Business Phone System

- **Anonymous Call Rejection** - Rejects calls from restricted numbers
- **Anywhere** - Callers dial just one number. Extend the features of a desk phone to one or more devices outside the office.
- **Call Block** - Restricts specified incoming calls
- **Call History** - View call logs for in/out bound and missed calls
- **Call Waiting** - Allows you to manage multiple calls at the same time
- **Caller ID** - Displays name and number of caller
- **Caller ID Delivery Blocking** - Block your info from the party you are calling one time
- **Client Call Control** - Enables use of custom call client applications
- **Do Not Disturb** - Set phone as unavailable status
- **Find me /Follow me** - Setup a list of numbers that trigger an alert when calls come in
- **Privacy** - Exclude yourself from directory listings and groups
- **Call Pull** - Move a call from one device to another
- **Voicemail** - Callers can leave messages for you using your Smart Number
- **Voicemail to Email** - Sends voicemails to your email

All your communication needs with just one Smart Number!
